

Mesrob's Mighty Feather Pen/Pencil

Mesrob Mashtots was one of the Holy Translators of the Armenian Apostolic Church. He made an alphabet for the Armenian language so that the Bible could be written in Armenian. Mighty important achievements may be accomplished with a pen and paper. In honor of St. Mesrob, let's make our own Mighty Feather Pen/Pencil!

MATERIALS NEEDED:

- Pens or pencils
- Feathers - use festive Halloween colors (*orange* and *black*) or colors of the Armenian flag (*red*, *blue*, *orange*)
- Floral tape (*clear scotch tape will work too*)
- Ribbon
- "Mesrob's Mighty Pen" tags - cut out and hole punch on the "●" (*template to follow*)

DIRECTIONS:

Step One: Select Feathers. You can start with one, or with a couple of large and a couple of smaller feathers.

Step Two: Attach the feathers to pencil using floral tape or scotch tape. As you're wrapping the tape, add additional feathers as desired. Once you've attached your feathers, you're ready for the last step.

Step Three: Tie your red, blue, and orange ribbons around the floral/scotch tape and secure with glue (optional). Attach your "Mesrob's Mighty Pen" tag to the ribbon. Tie a bow for the finishing touch.

St. Mesrob's Mighty Pen

God gave the letters, "ayp, pen, keem,"
To Mesrob Mashtots in a dream.
And now we have an alphabet,
This gift from God we'll not forget!

St. Mesrob's Mighty Pen

God gave the letters, "ayp, pen, keem,"
To Mesrob Mashtots in a dream.
And now we have an alphabet,
This gift from God we'll not forget!
