# The Cross in The Sky

It was an ordinary day in Jerusalem. Some people were in the market place doing their shopping. Others were chatting with neighbors and friends.

All of a sudden one of the people looked up in the sky and could not believe his eyes. He saw a huge cross! He cried out to those around him, "Look! Look, all of you! Look up there!"

He pointed upward toward the sky. Everyone looked where the man had pointed. There they too saw a huge cross. It was

even bigger than the size of our church and even of your own house.

What a sight to see a cross way up in the sky!

The people knew that this must be a sign from God, and more of them believed that Jesus Christ was God's Son.
