

In the Armenian Church, the **Feast of the Exaltation of the Holy Cross** takes place with great ceremony and includes the ritual of the Great Procession and Blessing of the Four Corners of the Earth.

During the Blessing of the Four Corners ceremony, there are readings from Scripture, hymns and prayers offered that speak to the Holy Cross of Christ.

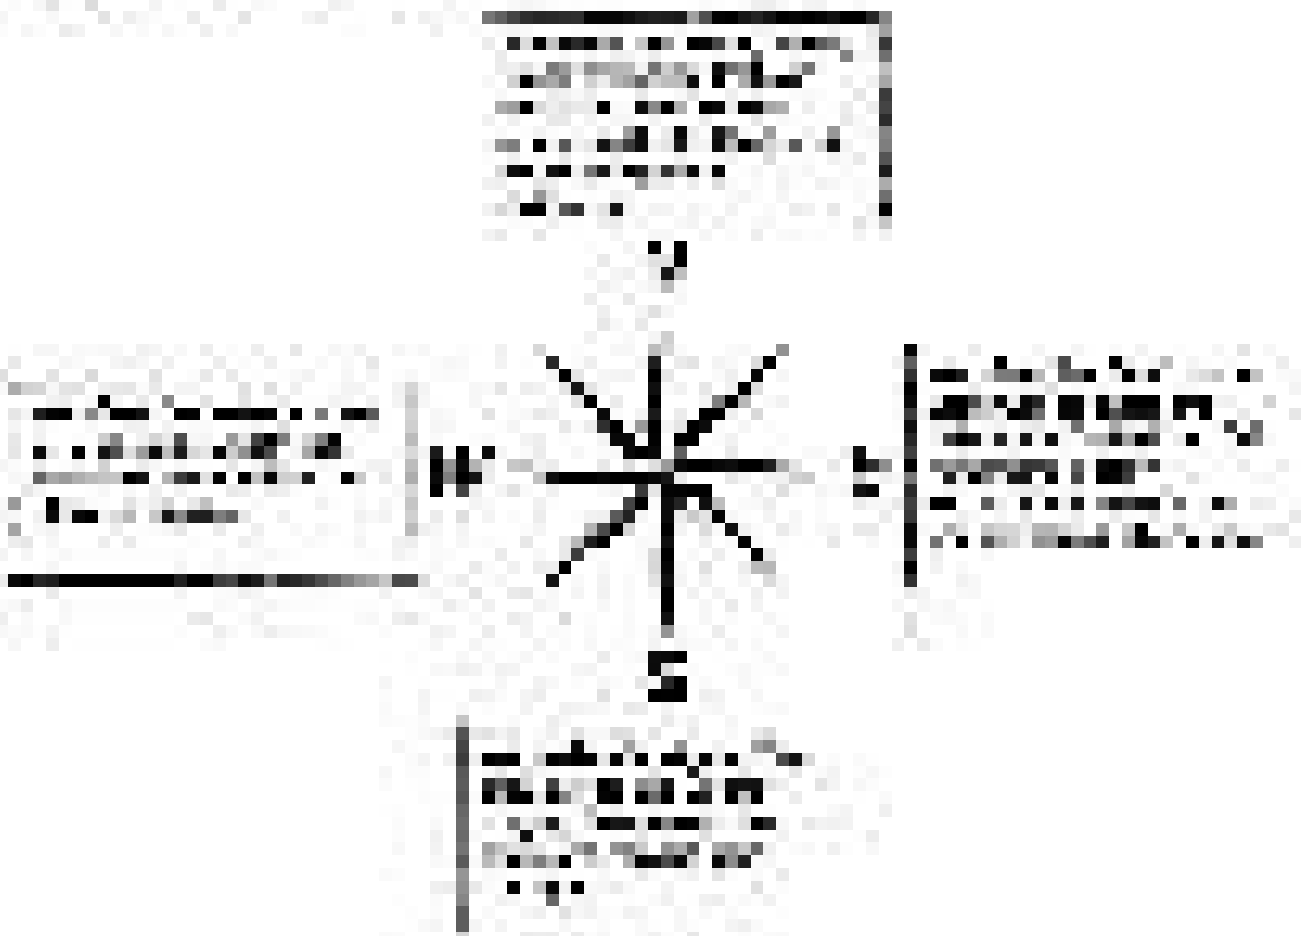

At the end of the service, the congregation would come forward to venerate (honor) the Cross and take springs of basil home.

1. Identify the main components of the system
 2. Define the system boundaries
 3. Identify the inputs and outputs
 4. Identify the internal processes
 5. Identify the feedback loops

6. Identify the control elements
 7. Identify the sensors
 8. Identify the actuators
 9. Identify the controllers
 10. Identify the setpoints

11. Identify the control strategy
 12. Identify the control algorithm
 13. Identify the control parameters
 14. Identify the control gains
 15. Identify the control limits
