

Temptation in the Garden

"You will not surely die," the serpent said to the woman. "For God knows that when you eat of it your eyes will be opened, and you will be like God, knowing good and evil." Genesis 3:4-5 (NIV)

ACROSS

- 2. The man to whom a woman is married
- 5. To put food into the mouth, chew it, and swallow it
- 7. An adult female human being
- 8. The creature that tempted Eve; a snake

DOWN

- 1. A piece of land where flowers and other plants are grown
- 3. To stop living
- 4. The sweet-tasting part of a tree which can be eaten
- 6. A tall plant which has a wooden trunk and branches

WOMAN	HUSBAND	SERPENT	TREE
FRUIT	GARDEN	EAT	DIE

Development of the Brain

The brain is the most complex organ in the body. It is responsible for all the functions of the body, including thought, feeling, and movement. The brain is made up of billions of cells that work together to control the body.

Structure

- The brain is divided into two halves, the left and right hemispheres.
- Each hemisphere is further divided into four lobes: the frontal lobe, the parietal lobe, the temporal lobe, and the occipital lobe.
- The brain is also divided into three main regions: the cerebrum, the cerebellum, and the brainstem.

Function

- The brain controls all the functions of the body, including movement, sensation, and thought.
- It is also responsible for learning, memory, and emotion.
- The brain is constantly changing and adapting to new information and experiences.

Structure	Function
Cerebrum	Controls all the functions of the body, including movement, sensation, and thought.
Cerebellum	Coordinates movement and balance.
Brainstem	Controls basic life functions, such as breathing and heart rate.
