

3. Chart: Genealogy of Major Judaeo-Christian Bodies in the United States *

By ROBERT WINSTON CARDEN, Professor, Schreiner Institute, Kerrville, Texas

* Note: Some of the churches began their existence at the time indicated on the chart, but this is not necessarily true of others. For example, the Roman Catholic and the Eastern (Greek) branch split in A.D. 1054, but both churches, of course, existed before that time. Likewise the Anglican Church (Church of England) did not originate in A.D. 1535, but it was in that year that it pulled out from the authority of Rome.
