

## Helping Hands

We made this when we were studying about the Miracles of Jesus. Here are the instructions:

- Purchase scrapbook paper from a local craft store that looks like sand on a beach.
- Cut the scrapbook paper down to 8 1/2 x 11 paper. (For smaller hands, cut that paper in half making it 4 1/4 x 5 1/2 paper.)
- Print the words on it using a computer. To make the handprint, pour Elmer's glue into a plastic plate. Have the children dip their hands in the glue and put the handprint onto the paper (just as if you were painting or stamping their handprint). Then sprinkle sand on top (like you would sprinkle glitter).
