

# Nativity Manger

## What You Need:

- Paper "Gable Box" - pictured to right  
(available at Michaels, 10 pack for \$6.99)
- Scissors
- Tape
- Straw (optional)

## What To Do:

1. Follow instructions to put box together.
2. Once your box is assembled, using a ruler, draw a line across the front panel, about 1-inch from the bottom.

3. Follow the steps below to cut off the front panel of the box:
  - 1) Carefully cut down the 2 sides of the front, stopping at the line you drew 1-inch from the bottom.
  - 2) Then cut across the top of panel
  - 3) Then cut across bottom of panel, along the line you drew 1-inch from the bottom. This will create the opening to your nativity stable.

4. Secure sides and "roof" with tape if necessary.
5. Decorate the outside of stable with any of the options below (samples on next page):
  - Shepherds on the sides (provide a cutout or sticker)
  - An angel to the roof (provide a cut out or sticker)
  - A star to the roof or hanging from top (provide a cut out or sticker)
  - Straw for the bottom of stable
