There was a beautiful nun named Hripsime who was running for her life for being Christian.

While she was fleeing, Hripsime buried a piece of our Lord's cross in the mountains of Varak so it would be hidden from the Roman soldiers.

The cross remained hidden among the rocks of Mt. Varak for 300 years!

300 years later, a hermit named Thodik was praying on Mt. Varak when he saw a vision.

Thodik saw a shining cross with a light, showing where the cross was hidden. The cross was found!
